Migration Report Quick Reference

Your Task

Review two tabs. Validate or correct each classification.

Tab	What It Contains	Action
Settings_Analysis	All settings	Validate each row
Review_Required	Conflicts only	Decide correct value

Classifications At-A-Glance

Classification	Meaning	Your Response
● MIGRATE	Only exists in operation	Approve or reject with reason
● DON'T MIGRATE	Same value in enterprise	No action (spot check only)
● REVIEW	Values differ	Decide which value is correct

MIGRATE Decision

```
Is setting needed?
  │
  ├─ NO  → DON'T MIGRATE
  │       + document reason
  │
  └─ YES → Add to EIT GPO?
             │
             ├─ YES → Note EIT GPO name
             │
             └─ NO  → Approve + target OU
```

REVIEW Decision

```
Is operation value intentional?
  │
  ├─ YES   → MIGRATE
  │          + justification
  │
  ├─ NO    → DON'T MIGRATE
  │
  └─ UNSURE → Escalate
              (with Operation)
```

Target OU Reference

Applies To	Link To
Servers	Server OU
Workstations	Workstation OU
Users	User OU
All computers	Domain Root

Key Columns

Settings_Analysis:

`Classification → Reason → Operation_GPO → Enterprise_GPO → Setting_Name → Operation_Value → Enterprise_Value`

Review_Required:

`Operation_GPO → Enterprise_GPO → Setting_Name → Operation_Value → Enterprise_Value → Reason`

Recording Decisions

Column	Values
`Final_Classification`	MIGRATE, DON'T MIGRATE, ESCALATE
`Target_OU`	Server, Workstation, User, Domain Root
`Notes`	Justification or questions
`Reviewer / Review_Date`	Your name / Date

Deliverables Checklist

- ☐ Approved MIGRATE settings + target OU
- ☐ Items changed to DON'T MIGRATE + reason
- ☐ Resolved REVIEW items + justification
- ☐ Escalated items + questions (to Operation)
